<sup>1</sup> Prepared by the Administration for Children and Families, Office of Community Services, Division of Energy Assistance. In accordance with 45 CFR 96.85, 60 percent of each state's estimated median income for a four-person family is multiplied by the following percentages to adjust for household size for LIHEAP: 52 percent for one person, 68 percent for two persons, 84 percent for three persons, 100 percent for four persons, 116 percent for five persons, and 132 percent for six persons. For each additional household member above six persons, add three percentage points to the percentage for a six-person household (132 percent) and multiply the new percentage by 60 percent of the state's estimated median income for a four-person household.

<sup>2</sup> The estimated U.S. median income for 4-person families is \$123,422 for the period of October 1, 2026, through September 30, 2027.

<sup>4</sup> Prepared by the Administration for Children and Families, Office of Community Services, Division of Energy Assistance. In accordance with 45 CFR 96.85, 60 percent of each state's estimated median income for a four-person family is multiplied by the following percentages to adjust for household size for LIHEAP: 135 percent for seven persons, 138 percent for eight persons, 141 percent for nine persons, 144 percent for 10 persons, 147 percent for 11 persons, and 150 percent for 12 persons. For each additional household member above 12 persons, add three percentage points to the percentage for a 12-person household (150 percent) and multiply the new percentage by 60 percent of the state's estimated median income for a four-person household.

<sup>5</sup> The estimated U.S. median income for 4-person families is \$123,422 for the period of October 1, 2026, through September 30, 2027.
